Special Topic:
TestTakers SAT prep management with 4D

Frank Pomilla
President and founder
TestTakers

<https://www.linkedin.com/in/frank-pomilla-380a4a4>

Why is TestTakers the smart choice for SAT preparation?

Although we could explain why our materials, teachers, and score improvements are the best around, the key to our success is the personal relationship we build with every student. All students are carefully placed in small classes taught by exciting, caring SAT experts who are eager to help them master the material and techniques necessary for the grueling test. Additionally, students have extensive access to their Site Directors, full-time SAT gurus with one mission: to help make SAT preparation as painless as possible. In fact, the best way to learn about the course is to give one of our Directors a call! By calling the numbers at the bottom of the page you can personally speak to the Site Director for your local course and experience the individual attention that all of our students receive. We'd love to hear from you!

ANNOUNCEMENTS

Our spring preparation classes for the May SAT are now full, but we have availability in our summer courses beginning shortly after the end of the school year. Good luck to all of our spring students and remember to take advantage of the Spotlight Sessions!

Questions? Talk to one of our Site Directors to learn more.
